

# MADE AT MICHIGAN. LEADING GLOBALLY.

**AT TAUBMAN COLLEGE OF ARCHITECTURE AND URBAN PLANNING**, we offer an unmatched breadth of opportunity. Students who graduate with an architecture degree from the University of Michigan are fully prepared to innovate, experiment, and lead in careers with employers across the U.S. and abroad. An architecture education opens doors beyond the realm of a traditional architecture firm: from related fields like construction management, real estate development, engineering, or planning, to experiential architecture, UI/UX, product design, and beyond. The possibilities truly are endless.
