

HEALTHY CITIES CERTIFICATE REQUIREMENTS

Name: _____

ID#: _____

Unique Name: _____

Graduate Program: _____

	Course Number	Term Taken	Modification/Approved by
1. Public Health Perspective (3 credits)			
2. Planning and Design Perspective (3 credits)			
3. Public Policy Perspective (3 credits)			
4. Specialized Elective Coursework (3 credits)			
5. Integrative Seminar (1 credit)			

Rackham rules govern the double counting of credits. At the current time, Rackham policies state the following: Not more than one-sixth of the credits required for a master's degree may be double-counted with a certificate. Not more than half of the credits necessary for a certificate that requires 10 or more credits of coursework may be double-counted with a master's. This means, for instance, that for any student enrolled in a masters program that requires 36 or more credit hours (as is the case in Taubman, Public Health, and the Ford School), students are allowed to double-count six credit hours toward both their masters degree and the proposed certificate. Additional rules apply, and policies are continuously changing. For authoritative and up-to-date information, see <http://www.rackham.umich.edu/current-students/policies/academic-policies/section9>.

Healthy Cities Certificate Approval _____

COURSES

1. Public Health Perspective (3 credits)

Preferred

HBEHED 710.02 Urban Health 3

Also acceptable

EHS 500 Principles of Environmental Health Sciences 3

EPID 514 Social Epidemiology* 3

* Has prerequisites or requires instructor permission

2. Planning and Design Perspective (3 credits)

Preferred

URP 552 Healthy Cities Planning and Design 3

Also acceptable

ARCH 726 Theories in Design Health * 3

* Has prerequisites or requires instructor permission

3. Public Policy Perspective (3 credits)

Preferred

PUBPOL 750.306 Public Policy Approaches to Social Disparities in Health 3

Also acceptable

HMP 615 Introduction to Public Health Policy 3

HMP 619 Health and the Public Policy Process 3

* Has prerequisites or requires instructor permission

4. Specialized Elective Coursework (3 credits)

Student is responsible for confirming whether elective courses have prerequisites or require instructor permission.

School of Public Health

EHS 570 Water Quality Management 3

EHS 582 Principles of Community Air Pollution 3

EHS 601 Exposure Science and Health 3

EHS 614 Water and global health 2

EHS 688 Topics in Environmental Health Sciences 1

EPID 666 Health and Socioeconomic Development** 3

HBEHED640 Community Organization for Health Education 3

HBEHED 690 Environmental Health Promotion 3

NUTR 555 Foundations of Sustainable Food Systems 3

NUTR642 Community Nutrition 3

Taubman College

URP 527 Foundations of Sustainable Food Systems 3

URP 528 Food Systems Planning** 3

URP 573	Infrastructure Planning in the US and Developing Countries**	3
URP 582	Neighborhood Planning	3
ARCH 509	Healthy Building**	3
ARCH700	MS Practicum in Design Health**	6
ARCH 727	Health: Individual Infrastructures**	3
ARCH 728	Health: Civic Infrastructures**	3
<i>Ford School</i>		
PUBPOL 580	Values, Ethics, and Public Policy	3
PUBPOL 626	History and Future of Detroit	1
PUBPOL 650	Intro to Science and Technology Policy Analysis	3
